APPENDIX

Concise Explanation

Translation of select passages:

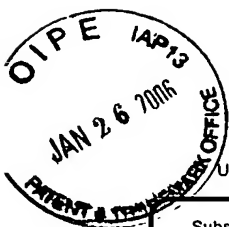

Manfred Brill "Die anwendernahen Schichten im ISO/OSI-Modell, Tiel 1"

page 77, "Einleitung" (Introduction):

In that case, it should be noted that the model is one where **no** specifications are defined for the implementation in different computer systems"

page 78, right-hand column, "1.3 Dienst und Dienstelemente" (Service and Service Elements):

... At the same time, these elements provide an abstract description for the course of a service. This description is abstract because it is not necessary to realize every service element by, for example, a corresponding function call in an implementation.
